MEMORANDUM FOR: Chief,

Chief, Budget and Fiscal Branch, OL

Chief, Records and Services Branch, OL

Chief, Systems and Analysis Branch, OL

Chief, Building Planning Staff, OL

Chief, Personnel and Training Staff, OL

Chief, Procurement Management Staff, OL

Chief, Security Staff, OL

Chief, Logistics Services Division, OL

Chief, Printing and Photography Division, OL

Chief, Procurement Division, OL

Chief, Real Estate and Construction Divison, OL

Chief, Supply Division, OL

STAT FROM:

Chief, Plans and Programs Staff, OL

SUBJECT:

Strategic Planning and DDA Requirements

- 1. In the Staff Meeting of 22 October eleven topics were proposed as potential subject matter for use in updating the five year Office of Logistics (OL) Strategic Plan. These topics were intended to stimulate discussion and final planning on this subject at the Staff and Division Chiefs' Conference, 12 and 13 November. As also indicated, we were expecting the receipt of strategic planning requirements from the DDA. They have been received and they form an attachment to this memorandum. Note that the due date for forwarding a consolidated OL package is 1 December.
- 2. As indicated in Attachment B, the topics within the DDA's goals (which OL's plan is to support) are, in general, dissimilar to Plans and Programs Staff's (P&PS) suggested topic list.

 Moreover, the existing OL Strategic Plan does not contain complete and significant relationships to these goals. On the other hand, it appears that approximately 17 of the 31 FY-81 MBOs will continue into FY-82 and some portion of these topics (plus new ones yet to be identified) may support DDA goals and fulfill the requirement for reporting and tracking first year milestone progress towards goal achievement (Attachment D). Additionally, your inputs that followed the 21 August request to update the OL Strategic Plan may contain substantive material that is applicable to supporting DDA goals.

SUBJECT: Strategic Planning and DDA Requirements

- 3. In view of the short deadline indicated, it is recommended that:
 - a. Each staff and division chief immediately address requirements contained in the attached DDA paper, in generating inputs to P&PS, not later than 20 November. Examine applicable DDA goals in light of how your component might support it from an OL standpoint. Identify, in the abbreviated milestone chart, those ongoing or new MBOs that support the identified DDA goals.
 - b. In terms of a longer range project, be prepared to discuss the future content of an updated OL Strategic Plan at the 12-13 November conference. Consider the integration of the existing Plan's content and your recent submissions with the material to be submitted to the DDA and P&PS's proposed topic list, or other alternatives for updating and preparation of OL's Strategic Plan.
- 4. It is acknowledged that, realistically, time is short in responding to the DDA paper. P&PS will accept component inputs and compile a response to the DDA as rapidly as possible, based upon your timely response (NLT 20 November). It is further recognized that all OL components cannot speak to each of the DDA goals. Therefore, in Attachment B and following each DDA goal, component identifiers have been inserted; each designee is asked to provide input on indicated specific goals. You certainly have the prerogative to exceed your assignment in other subject areas, should you chose to do so. Please contact if questions regarding this package arise.

MEMORANDUM FOR: Director of Logistics

FROM:

Harry E. Fitzwater

Deputy Director for Administration

SUBJECT:

Uniform Planning Procedures for the Directorate of Administration

1. You are hereby requested to prepare a short five-year plan, outlining Office goals and establishing Office objectives to attain these goals. The plan established for your Office must be flexible and, to the extent feasible, integrated with the program and budget.

- The Office five-year plan should take the form of a relatively brief document (no more than 6-8 pages). It should delineate the primary goals which your Office will pursue over the next five years. Attachment A is the format to be used. your Office already publishes a planning document in a different format please extract relevant information, but do not write a new plan. Attachment B is a list of Directorate goals for your guidance. Your Office goals should be shaped to support the accomplishment of the Directorate goals. Attachment C is a list of planning assumptions that were considered in the formulation of Directorate goals and which may be of value in drafting Office plans.
 - You are requested to select those goals which should be tracked during the initial year of the plan and to establish milestones which will be achieved on a quarterly basis. After your five-year plan, first-year tracking objectives, and milestones are approved, we will meet with you and your officers on a quarterly basis to discuss progress and problems. milestone chart (attachment D) will be used to track your component's accomplishments. Conferences will be coordinated by the Planning Officer, DDA/MS, who will also publish the minutes of each conference. Action items which result from the conferences will be addressed in the minutes. With your first submission, please identify a focal point for your planning activity. Presentations at the conferences will be given by officers responsible for the given objectives. Conferences will take place in your area.

4. I believe that these procedures are relatively simple,
minimize paper work, and hopefully will assist both of us in
carrying out our respective responsibilities. The planning will
provide me with a better understanding of our activities and
problems. It will also allow me to meet and assist in the
prioritization of our goals and objectives and it will serve as a
mechanism by which we can have a continuing, meaningful dialogue
regarding the accomplishment of our mission.

5. Please submit your p	oropose <u>d</u>	Office	plans	(with	first-
year objectives and milestone	es) to			Plar	ning
Officer, DDA Management Staff	, extens	ion	by	1 Dece	ember
1981.

STAT

Attachments As Stated

Attachment A

Suggested Outline Office of Logistics

- I. Introduction
- II. Assumptions

Brief description of the projected environment in the years covered by the plan

III. Goals

Major efforts to be undertaken by the Office over the next 5 years in order to meet the DDA's objectives

IV. Objectives

A list of those critical activities which the Office will undertake in order to meet its stated goals

V. First-Year Schedule

Delineate and forecast accomplishments and targets by quarters

VI. Resource Implications

A listing of the most critical budgetary implications involved in the Office's objectives. This list should concentrate most heavily on the upcoming program year. Detailed budgetary figures should be avoided. If there are staffing problems which may occur over the period of the plan, these problems should be briefly outlined in this section.

APPROVED:					
	Deputy	Director	for	Administration	

Attachment B

GOALS

- Personnel is the single most important resource of the Directorate. Consequently, our primary goal is to create a work environment wherein our people are encouraged to develop as individuals and are given opportunity to attain their fullest potential. We must manage an effective career development system which is multi-faceted, maximizing the potential of the employee as well as his/her contribution to the Organization. Each Office shall establish a dynamic personnel management process which provides effective career management for all employees. This process will respond to the changing needs of the Agency and the intelligence profession; develop programs which meet component needs; and establish realistic succession planning for senior management positions. EEO, affirmative action programs, and training shall be incorporated into this goal.
- (P&TS, LSD, P&PD, PD, RECD, SD, PMS)

 2. In conjunction with our primary goal and of equal importance, each Office shall instill in its employees a renewed sense of discipline and dedication to the high standards and principles espoused by the Agency, particularly in the areas of personal integrity and security. Our objective is to stop the deterioration in security attitudes which have eroded the effectiveness of our mission over the past decade. In addition, we must rekindle an esprit de corps, a teamwork approach, and a deep sense of pride in self and mission accomplishment to sustain our personnel, not only throughout their Agency careers, but also during their post employment years.

 (SS, LSD, P&PD, PD, RECD, SD)
- 3. Maximize the effective utilization of existing facilities and space while taking appropriate action for additional needs. Each manager shall give special attention (over and above the general scope of Logistics' responsibility) to the cleanliness and safety of the working environment. There shall be a clear recognition of the interdependence of health and safety on our productivity. The working environment shall be managed and maintained in such a manner that it is conducive to improved morale and that it enhances the efficiency of our activities. (RECD, LSD, P&PD, SD)
- 4. All Directorate activities shall be conducted in an efficient manner with emphasis upon streamlining records holdings, reducing waste, avoiding duplication of efforts, using cost savings techniques, and maximum utilization of existing resources. To accomplish this, we must anticipate and

aggressively pursue developing requirements and formulate improved mechanisms for inter-and intra-Directorate coordination.

(All OL components)

- 5. Make preparations for supporting unanticipated world-wide intelligence demands and requirements caused by a surge in collection and/or analysis efforts.
- (SD, RECD, P&PD)
 6. The Directorate will pay appropriate attention to utilizing R&D programs to exploit 'state-of-the-art' capabilities and to ensure that Directorate support is second to none. We must also ensure proper planning for the recapitalization of resources so that the Directorate will fulfill projected missions and functions in a modern and efficient manner.

(P&PD, SD, PD, RECD)

7. Establish Disaster/Emergency Planning which focuses attention on contingency planning and develops mechanisms and procedures which will maintain essential support capabilities under adverse conditions. The Directorate must prepare for the continuity of essential functions during periods of national emergency and for the relocation and/or reconstitution of Agency elements.

(P&PS; others as may be applicable)

9. The Directorate's mission in providing services of common concern in a prompt and efficient manner must be emphasized. Directorate support activities must be responsive, innovative, and timely. Our support endeavors will enhance, not impede, the efficiency of Agency operations and assist the accomplishment of its mission.

(P&PD, SD, PD, RECD)

9. Eliminate those areas of duplication which occur in providing services of common concern. Particular attention should be paid to services provided to our Agency by other government organizations. In addition, identify those areas which could be performed more efficiently by contracting to the commercial market.

(LSD, SD, RECD)

Attachment C

ASSUMPTIONS

- 1. During the next five years, it is likely that the Agency will experience a continued growth in requirements. As a result, the Directorate may expect increased demands for expanding services. We may expect the resource base of the Directorate to increase, however, there must be continued emphasis on cost effectiveness and efficiency.
- 2. Anticipated requirements which may call for expanded administrative support are: increase in the Agency's population, expansion of domestic operational activities _______, enlargement of overseas activities, greater use of nonofficial cover and an increase in official cover, more joint Intelligence Community activities, and increased utilization of information handling systems.

STAT

- 3. While we may experience some minor adjustments within our current Directorate structure to adapt to changing and/or expanding requirements, there will not be any major reorganizations.
- 4. A surge capability for quick responses to unanticipated intelligence demands will be needed and it will require a support structure which is equally flexible.
- 5. Covert action operations will receive increased emphasis from the policy makers; an effective capability in this area will be developed which will require significant support from the Directorate of Administration working closely with the Directorate of Operations. In addition, we will be required to support quick-reaction, antiterrorism capabilities.
- 6. As new technical collection systems continue to be developed, the Directorate will be called upon to support additional general contracting activities, ground stations, and logistics systems.
- 7. Activities in support of a new building on the Headquarters compound will continue.
- 8. The emphasis on increased analytical capabilities (languages, country expertise, amalgamation of multiple-source

- data) will continue and will require additional administrative support in terms of training, physical plant, equipment, etc.
- 9. The Agency will adopt a multi-year, target-oriented program approach as a budgetary strategy. Support resources will be incorporated into a total program concept.
